Introduction

Great Ocean Road Regional Tourism Ltd is undertaking the preparation of a Tourism Strategic Master Plan for the Great Ocean Road region which extends from Torquay in the east to the South Australian border in the west.

A core strategy is to recognise that visitors to the region are primarily attracted to destinations and experiences. Therefore the development, marketing and management of the regions destinations is pivotal to the success of the whole region.

This Destination Action Plan for Lorne identifies priority strategies and actions which if implemented over three years will enhance the competitiveness of Lorne as a primary visitor destination of the region. These strategies will also be reflected in the Tourism Strategic Master Plan for the region to facilitate regional collaboration and cooperation.

The Plan has been prepared by a facilitated workshop process involving business and community representatives who considered and reached consensus on tourism development, marketing and management opportunities and challenges. The group then identified and agreed on the key priorities and actions that would make a positive difference to the growth and sustainability of the Lorne visitor economy and experience.

Success factors

Industry research has established that the following factors are present in successful destinations that are achieving the above objectives. The workshop participants considered these factors relative to Lorne in reaching consensus on the priority strategies and actions. A focus on continuous improvement of all these factors will contribute to the competitive growth and sustainability of the visitor economy of Lorne.

1. Strong local tourism organisations focussed on their core role of visitor servicing
2. Strong regional tourism organisations focussed on their core role of regional marketing and development
3. Local government support
4. Strong, consistent and effective leadership by individuals and/or organisations
5. Strategic planning for the economic, social, environmental and cultural objectives supported by local destination plans
6. Consistent visitor service excellence
7. Research driven cooperative marketing
8. A breadth and depth of tourism infrastructure, products and events matched to market demand
9. Risk management plans
10. Supportive communities which understand and value tourism.

Objectives

The common objectives for tourism are:

1. To increase visitor numbers
2. To increase visitor length of stay
3. To increase visitor expenditure
4. To increase visitor dispersal (geographically and seasonally)
5. To increase visitor satisfaction.

All of these objectives are important for Lorne with particular challenges in maximising visitor expenditure, seasonal dispersal and satisfaction.

The impact of population growth west of Melbourne and Geelong presents significant visitor management challenges, particularly from day visitors in peak periods.

Action Plan implementation

The following Action Plan outlines priorities and actions as a guide for Great Ocean Road Regional Tourism Ltd, Lorne Business & Tourism Association and the Surf Coast Shire to collaboratively and cooperatively implement the Plan. To facilitate this, an Implementation Leadership Group of representatives will be formed. While the Plan identifies primary organisational responsibilities and in many cases joint responsibility, it is reasonable to expect that the Implementation Leadership Group will consider and review this progressively. One key consideration will be the availability and securing of resources to progress the implementation of the Plan in a timely manner. It may also be appropriate and necessary to involve other organisations and to seek funding for specific projects.

The Plan does not commit any organisation to the actions proposed but is a guide to pursuing priorities and actions which will make a positive difference to the achievement of the tourism objectives noted above.

The priority actions have been assigned a KPI priority rating as a guide. These ratings are:

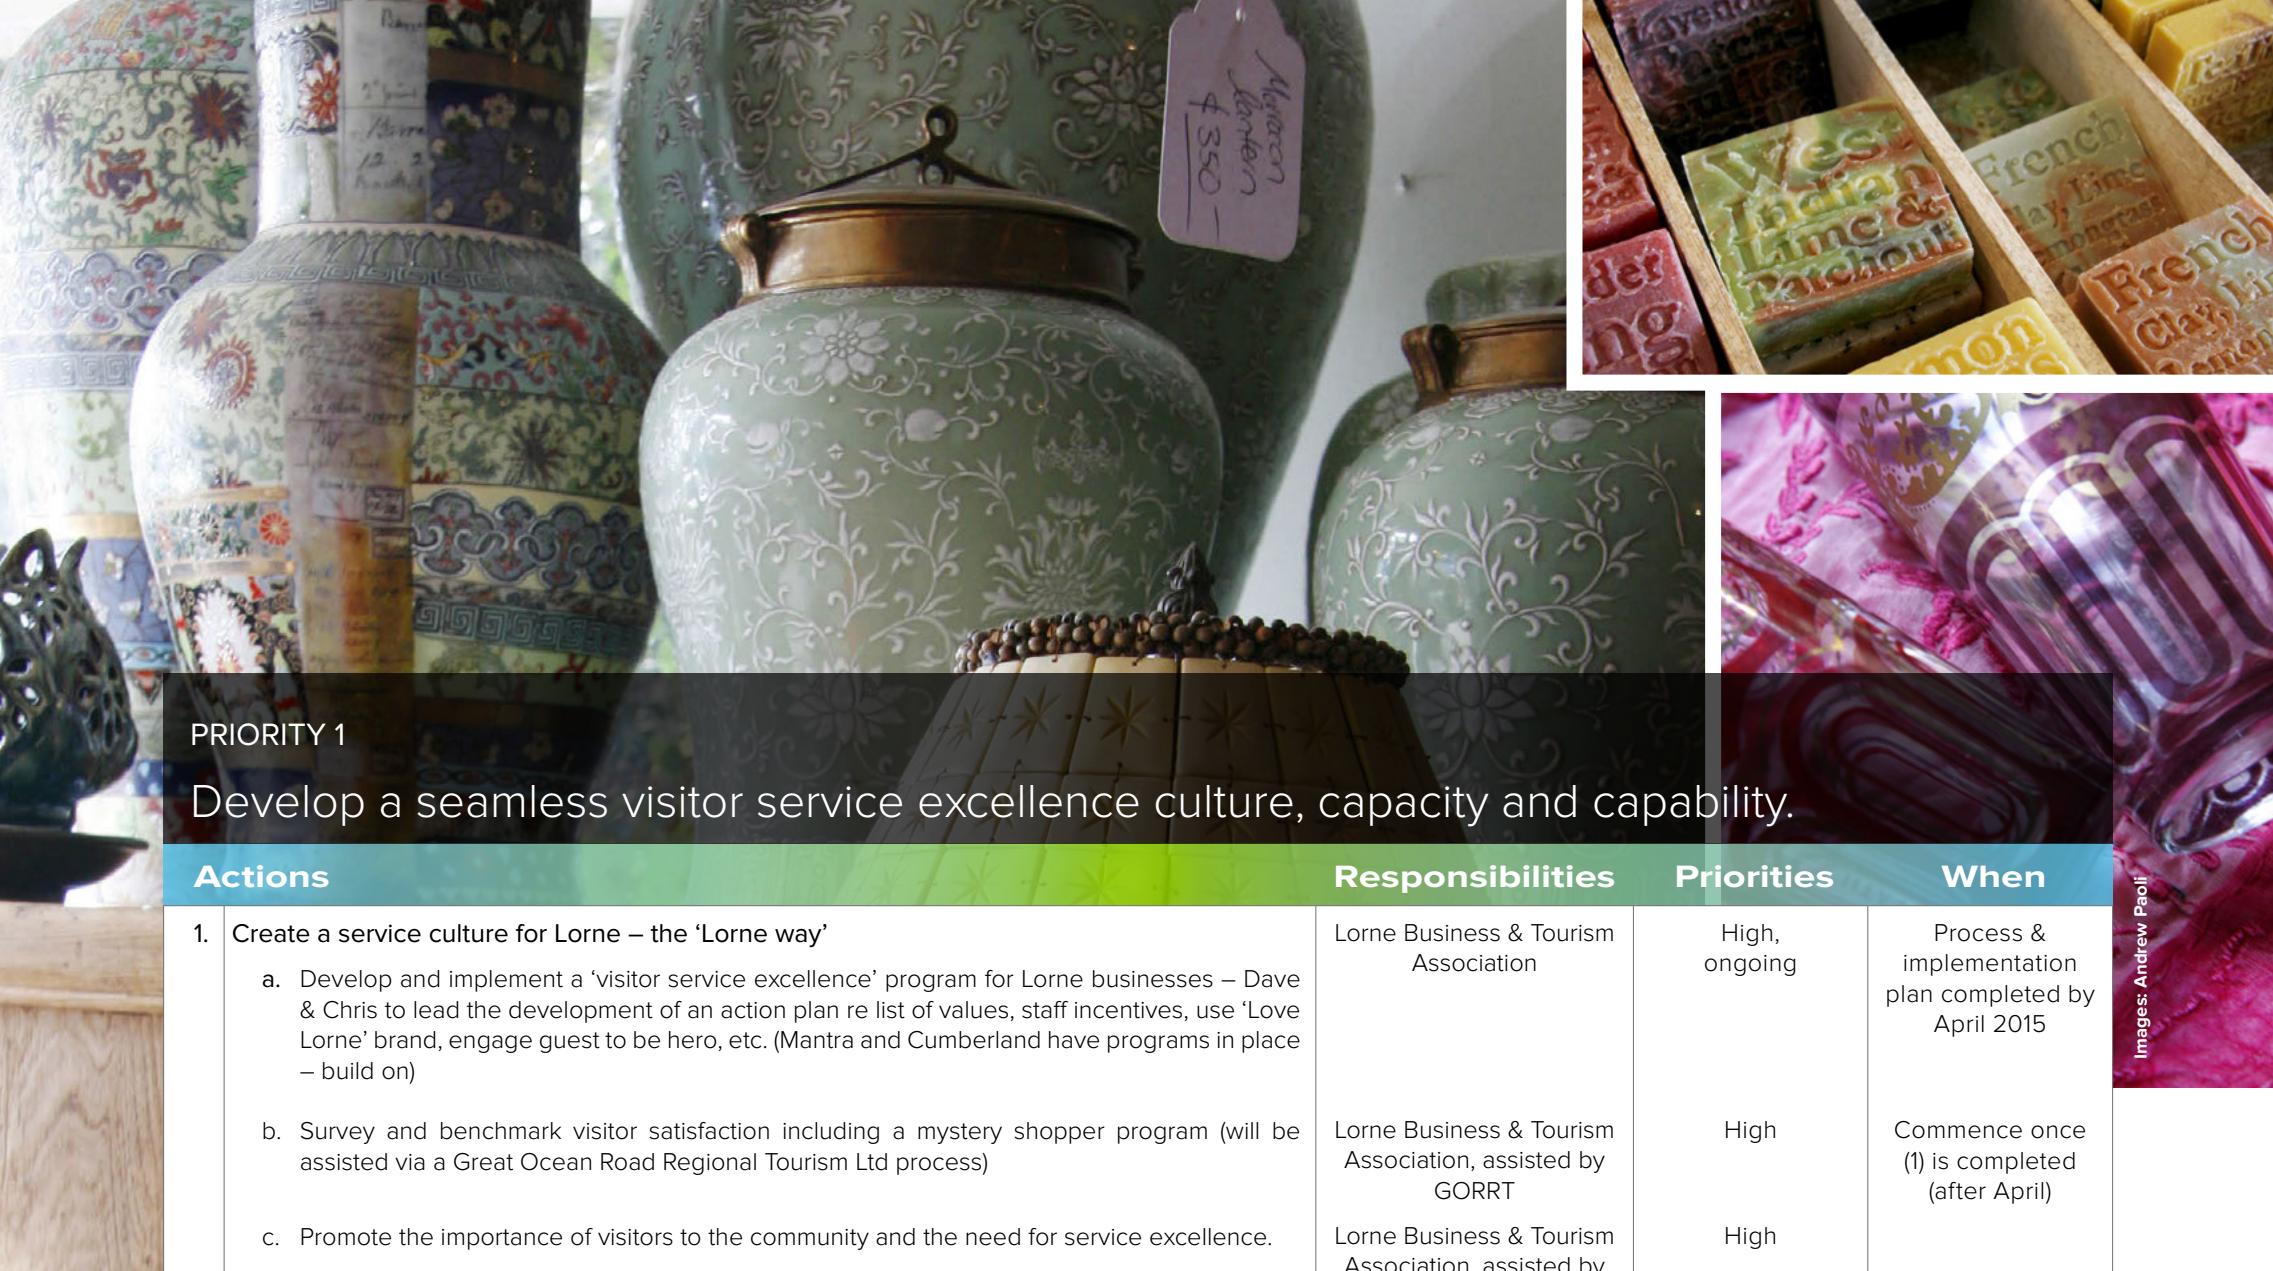

HIGH within the first year

MEDIUM within one to two years

LOW within three years.

Progress of implementation of the Plan will be undertaken annually by Great Ocean Road Regional Tourism Ltd in consultation with the Implementation Leadership Group. This may result in a revision and updating of the Plan. Regardless, a new plan will be prepared in three years.

The Destination Action Plan will provide input to the preparation of a Strategic Master Plan for the Great Ocean Road region.
